

Ryan is 25 years old and was diagnosed with Ewing's Sarcoma approximately 1-1/2 years ago. When he was diagnosed, he was serving in the US Army, ready to go to battle for our country and instead was forced into a battle for his own life.

He had major surgery last year to replace a bone in his leg in an effort to avoid amputation, had chemo and radiation and all the sickness that accompanies it and briefly went into remission. Sadly, the cancer has returned and is now in his spine & lymph nodes. He's again receiving chemo and keeping up a brave front. We're trying to spread the word to support Ryan by attending a celebration in his honor where he will showcase his talents (details below). If you can't attend, you can email Monica directly to find out how you and Ryan can help each other.

The intent of the celebration is to boost Ryan's outlook by having things to think about other than his illness.

Ryan's Celebration!

Date: Saturday, November 6, 2010

Time: 4 pm - 9 pm

Place: The Berry House, 106 Birch Road, New City, New York 10980

RSVP Marie/Telephone: 845 362 6930 by Monday, October 25, 2010

Come one, come all.

Monica and Marie are holding a "keep up the good spirits" party for Ryan Berry and it will be on November 6th at 4 pm.

"Some good friends, drinks and appetizers". Ryan has a couple of business' he is working on and they help him (very much) to keep his head involved in things other than his treatment.

One of his business: If you are looking for item, such as a new vaccumn cleaner, perhaps a concert ticket, etc., email the details (brand, model #, etc). to Monica at "[Monica0410@aol.com](mailto:Monica0410@aol.com)". Ryan promises to beat any and all prices.

Another of his ventures: Ryan is spending a great deal of time refurbishing laptops, personal computers, all sorts of IT gadgets, etc. Once refurbished, he sells them. Marie bought a Toshiba laptop, which typically costs \$900 retail, for \$350. "If you're in the market for a new laptop, I can't recommend his services highly enough."
